Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: Regarding claim 12, the prior art does not teach or render obvious a method for motion analysis and control in a printer device, comprising the steps of creating a printer drum profile and a printer head profile, applying the identified time constraints to the printer drum profile and the printer head profile to constrain the printer head profile to the printer drum profile, using printer drum profile to program the printer drum system to control motion of a printer drum of said printer drum system and using a printer head profile to program a printer head system to control motion of a printer head of a printer head system.

Regarding claim 17, the prior art does not teach or render obvious an apparatus for deriving and implementing one or more printer device motion profiles, comprising a means for applying the identified at least one time constraint to a first and second motion profiles to constrain the first and second motion profiles relative to one another, a means for solving the first and second motion profiles to complete a solution having solution information and a means for post-processing the solution information for use by first and second motor controlled systems.

Regarding claims 19 and 20, the prior art does not teach or render obvious a method for deriving and implementing one or more motion profiles of a printer device, comprising the steps of creating a first motion profile for the printer drum system, creating a second motion profile for the printer head system, applying the identified at least one time constraint to the first and second motion profiles to constrain the first and

second motion profiles to one another and solving the first and second motion profiles to complete a solution having solution information to prepare for use by the printer drum and printer head systems and post-processing the solution information for use by the printer drum and printer head systems.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
